Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-6, drawn to a vibrator.

Group II, claims 7-10 (and any other method claims), drawn to a method of freeing a jammed vibrator.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The shared features are known in the art as evidenced by WO 00/61344 (which corresponds to US 6,808,384).

3. During a telephone conversation with Timothy Newholm on 23 March 2009 a provisional election was made with traverse to prosecute the invention of Group I, claims 1-6. Affirmation of this election must be made by applicant in replying to this Office action. Claims 7-10 (and any other method claims) are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Failure to Comply with 37 CFR 1.121(c)

4. The preliminary amendment filed 20 January 2006 does not include a complete listing of all claims as required. Claims 11-14 are absent. As these claims are not

direct to the elected invention, the amended elected claims have been examined herein.

Any reply to this office action should include a complete claim listing.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 00/61344 (which corresponds to Jordan et al US 6,808,384; all column and line number herein below are those of the English language US document). Jordan discloses a device comprising an electric motor (4); a vibrator housing (1); a rotatable imbalance device (8); and a main switch (see col. 4, line 54). No other structural elements are positively recited as required elements of the claimed structure. As held in *Ex parte Masham*, 2 USPQ2d 1647 (Bd. Pat. App. & Inter. 1987) "recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus". Nonetheless, Jordan discloses changing the direction of rotation of the motor (see col. 3, lines 44-54).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
